25-55 TON LIFT TRUCKS

PALING®
TRANSPORTER LTD.

PALING®

OUR MOTIVATION IS OUR CUSTOMER'S

Shortest wheel base in its class and smallest turning radius in the industry.

Superb visibility increases operator confidence and minimizes accidents.

The unique features of this equipment reduce operating costs through increased efficiency.

25-55 TON LIFT TRUCKS

To be a supplier to a number of the world's most advanced steel producers, you have to be a first-rate manufacturing company. To challenge yourself to design and build equipment based on your customer's imagination, you have to be one of the best.

Supplying our customers with equipment that exceeds their expectations is our mission. At Paling, the customer's dreams are the foundation on which our equipment is built. Let Paling design and build on your imagination and watch the equipment of your dreams become a reality.

IMAGINATION... ANYTHING IS POSSIBLE

Equipment result in lower
based productivity.

Unprecedented driver comfort with emphasis on ergonomics, guarantees operator's acceptance.

With more standard features than any other equipment in its class, Paling takes material handling to a whole new level.
